**ENSIS SCORE Limited Edition****maximum power, top speed, easy manoeuvres**

Colors, all sizes:

ENSIS wings are known for their high performance. The SCORE Limited Edition will simply blow you off your feet with its power, speed and yet easy manoeuvrability. The pure bliss, when you fly at full speed over the water and a jump catapults you far into the sky. The X-PLY canopy material combined with the Hookipa fabric used for the leading edge allows an ultra-stiff profile resulting in instant power. The perfectly placed innovative, rigid handles add to the high responsiveness and direct steering. And yet, the SCORE Limited Edition feels light and balanced in your hand while flying. When racing with friends or competing for medals in course races, the radical upwind and downwind angles and the big wind range will thrill you. The ENSIS SCORE Limited Edition is for any ambitious rider who wants to feel pure performance and the highest quality.

SCORE Limited Edition 3.5, 4.0, 4.5, 5.2, 6.2, 6.9

## Freeride, Race & Wave

### Freeride

"The SCORE Limited Edition is by far the most responsive wing I have ever ridden. This helps me fly full speed, gives me extra hangtime when jumping and makes the wing super easy to control while doing manoeuvres. A dream wing for every ambitious wingfoiler."

Michi Näf

### Race

"I love the powerful and stable feel of the SCORE Limited Edition. The rigid handles make my manoeuvres incredibly simple. I find myself very comfortable riding the SCORE Limited Edition with all wind conditions and during races."

Margherita Barro

### Wave

"The SCORE Limited Edition is fantastic to take into the surf. While flagging the wing and riding waves it is the most stable wing I've used. The X-Ply material is tough, giving me peace of mind that my wing is durable and can take tumble."

Joshua Pretorius

## Key Features

### For ambitious discoverers to experts

This high performance wing is for all ambitious wing enthusiasts who crave power, speed and high jumps and enjoy all the benefits of ultra-direct steering and control.

### Top speed

The X-PLY canopy combined with the Hookipa fabric used for the leading edge allows an ultra-stiff profile. Therefore, no power is released, and the maximum speed is reached.

### Instant power

The exceptionally high rigidity of the wing transforms the rider's movement into an immediate response, generating instant power and forward momentum.

### Radical angles in races

The thin and rigid profile allows for extreme up- and downwind angles. Leave your mates behind you!

### Light and balanced while flying

The enormous power generated by the wing is steady and feels comfortable in your hands. Let yourself be surprised by how light and balanced the SCORE Limited Edition feels while flying!

### **Easy in manoeuvres**

The wing reacts very quickly and only develops power when it is needed. Manoeuvres are easily and effortlessly performed.

### **Great hangtime and balanced surfing in waves**

The stiff and durable X-PLY offers incredible lift, providing a long hangtime for all jumping enthusiasts. The ultra-rigid profile lets the wing fly like a friend at your side.

### **Ergonomic rigid handles**

The rigid handles are perfectly positioned on the strut and offer firm and ergonomic grip for direct steering and extended sessions. The rounded corners spare your equipment. The innovative ENSIS Click Fix mounting system offers the perfect option for flying with a harness.

### **Large wind range**

The instant power and direct steering allow flying in very little wind. The rigid frame and profile lead to steady and highly controlled flying in stormy conditions.

## **Tech Features**

### **Stiff and durable X-PLY canopy**

The X-PLY material is stiffer than traditional canopy and is built under tension for the most stable profile. This canopy is highly durable and is ideal for material-intensive conditions such as in the waves.

### **X-PLY for open vision**

In a crowded spot or a race you benefit of the open vision thanks to the X-PLY canopy.

### **Thin high-pressure frame**

The Hookipa fabric used allows an air pressure of 10-12 PSI and thus a thinner diameter. This makes the frame ultra-stiff resulting in an incredibly stable profile.

### **Resistant front tube**

The leading edge is reinforced against abrasion at every segment's connection, specifically in the wing tip area where heavy duty material is used.

### **Direct steering and easy gripping**

The unique strut shape allows very direct steering of the wing while keeping the handles within easy reach.

### **Comfort and firm grip**

The unique egg-shaped cross-section and rather small diameter provide a firm grip and comfort for small and large hands.

### **ENSIS Click Fix mounting system**

The ENSIS Click Fix mounting system allow a ultra-rigid connection to the strut. Several reinforcements in the strut ensure a durable, tearproof attachment of the mounting plate to the strut.

### **Fast pump and deflate system**

The strut auto inflates using one valve with a wide hose diameter of 9 mm enabling quick inflation. An additional valve on the strut guarantees quick deflation for easy and compact packaging.

### **High-quality seams**

The leading edge and strut closing seam are built with an added reinforcement layer of insignia, using the highest resistance thread made in the UK. This enables the ENSIS wings to have the most rigid frame possible.

## **Accessories**

### **Ergonomic rigid handles**

The rigid handles are perfectly positioned on the strut and offer firm and ergonomic grip for direct steering and extended sessions. The rounded corners spare your equipment. The innovative ENSIS Click Fix mounting system offers the perfect option for flying with a harness.

### **Smart backpack**

The backpack is an eye-catcher and offers many features: ergonomic back part and shoulder straps for comfortable carrying, large zip opening for easy packing, adjustable size for packing with or without boom, large side pockets, and more.

## **Scope of delivery**

The SCORE Limited Edition wing is delivered in a wing set consisting of an adjustable high quality backpack, hand wrist leash and wing.
