WATER PROTECTION

WORKBOOK 2022

WATER PROTEC- TION

With the Foiling revolution, water protection is becoming even more of a concern for everyone.

At WIP, our mission is to make you forget your protections so you can focus on your ride and progression, feeling safe and comfortable.

We love innovation, we are the first brand to have launched a specially designed belt with a Nylon hook for the practice of WING Foiling. In 2022, we are coming with more innovative products.

Check out our new Line!

SUSTAINABLE WATER PROTECTION

*WIP is about the Water Protection not only for the Sailors and the riders.
We also want to be proactive in the protection of our Oceans.*

ACTION 1

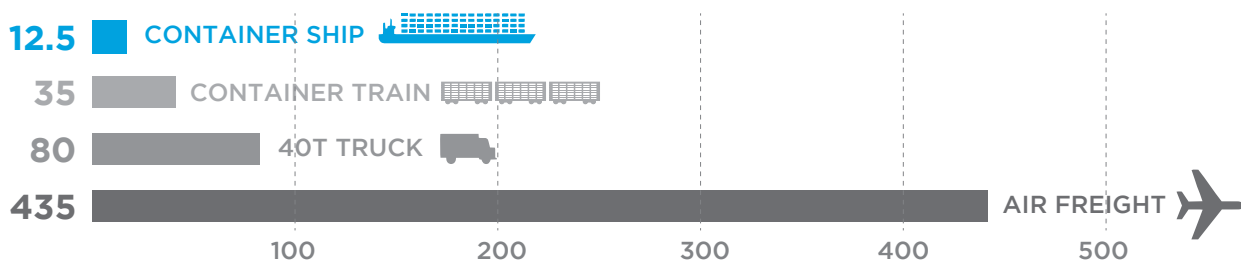

*We joined the 1% for the planet by investing 1% of our
turn over towards concrete actions to protect our oceans.*

ACTION 2

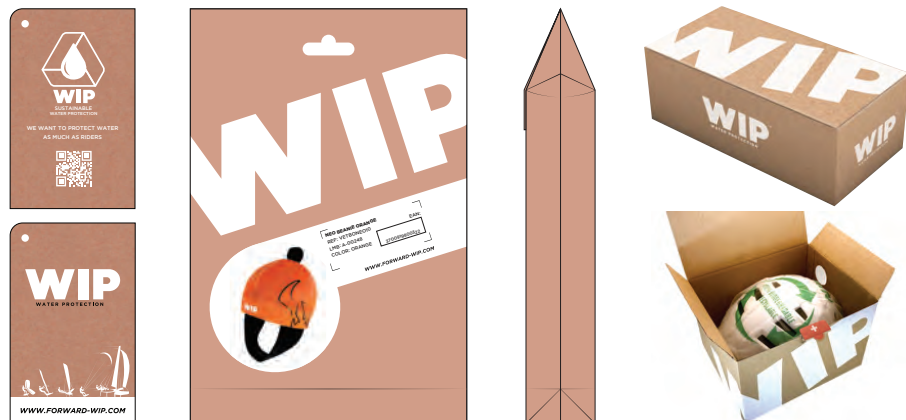

*We continue to only use sea shipments for volumic items that is by far
the transportation with the lowest CO2 emissions*

GRAMS PER TON/KM

ACTION 3

*All packaging is made from recycled materials
and printed with natural soy ink.*

ACTION 4 *Neoprene Products*

SOLVENT FREE GLUE

We use water-based glue, eliminating harmful and volatile organic compounds (VOCs)

DOPE-DYED YARN

This process of coloring yarn saves huge amounts of water while reducing energy consumption and water pollution.

Helmets - *PROWIP 2.0 Eco Cork Edition*

Introducing Bio Sourced & Recycled materials into our products.

WIP gives his trust to Sailing Distribution.
Find our Best Sailing Retailers at www.forward-wip.com

Be aware that product designs may change.

WIP Team thanks all photographers, riders, friends and ambassadors
who participate in the building of this great new collection.

WIP is part of the **FORWARD**  **GROUP**
