WATER PROTECTION

WORKBOOK 2022

INNO- VATION IN WATER PROTEC- TION

*WIP Team continues to push for innovation
thanks to valueable rider feedback.*

*Sailing with WIP gear makes you feel more confident
to push your limits and progress with fun.*

Enjoy our 2022 Collection!

SUSTAINABLE WATER PROTECTION

*WIP is about the Water Protection not only for the Sailors and the riders.
We also want to be proactive in the protection of our Oceans.*

ACTION 1

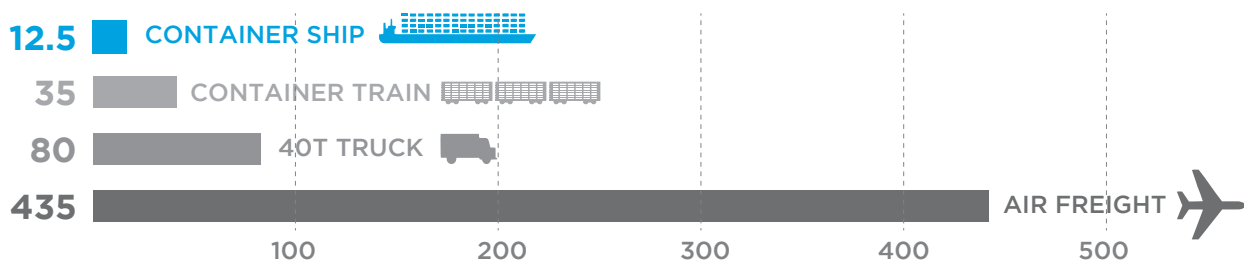

*We joined the 1% for the planet by investing 1% of our
turn over towards concrete actions to protect our oceans.*

ACTION 2

*We continue to only use sea shipments for volumic items that is by far
the transportation with the lowest CO2 emissions*

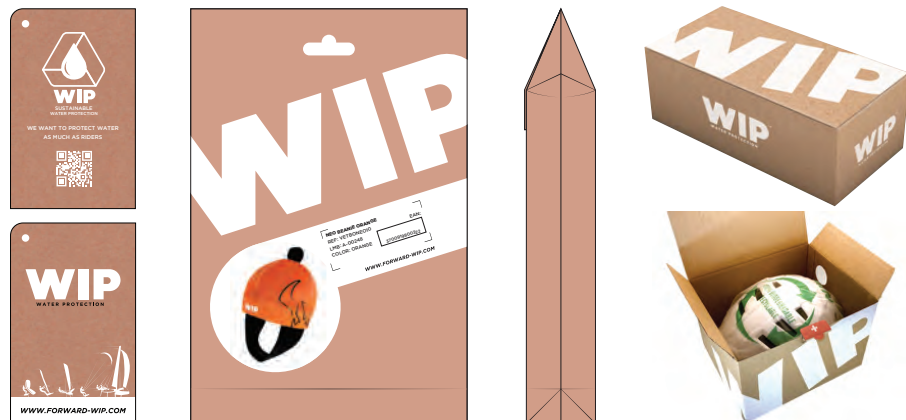

GRAMS PER TON/KM

Source: IMO Second GHG stud, 2018

ACTION 3

*All packaging is made from recycled materials
and printed with natural soy ink.*

ACTION 4 *Neoprene Products*

SOLVENT FREE GLUE

We use water-based glue, eliminating harmful and volatile organic compounds (VOCs)

DOPE-DYED YARN

This process of coloring yarn saves huge amounts of water while reducing energy consumption and water pollution.

Helmets - **PROWIP 2.0 Eco Cork Edition**

Introducing Bio Sourced & Recycled materials into our products.

DESIGNED TO KEEP YOU AGILE
- **REINFORCED BY 2 BATTENS ON THE BACK**
TO GET THE BEST COMBINATION OF LIGHTNESS AND SUPPORT
- **COMPACT AND LOW PROFIL**
SO NOTHING GETS IN YOUR WAY WHEN MANOEUVRING
- **LARGE TRAPEZE BAR**
TO PREVENT HIP CRUSHING
- **PADDED CROTCH SUPPORT WITH 2 ADJUSTABLE LEG STRAPS**
FOR THE BEST COMFORT WITH NEOPRENE FABRIC
- **REINFORCED SEAT**
FOR A SUPER DURABLE AND STRONG SEAT AREA

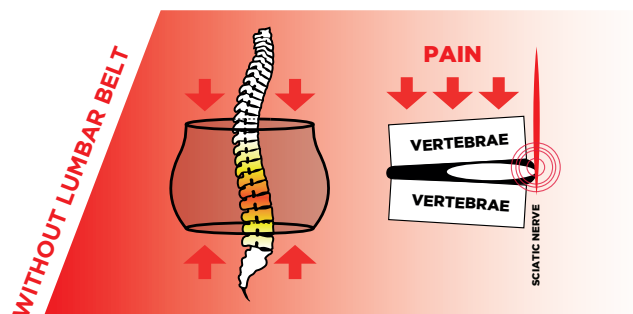

A HARNESS FOR EVERY NEED

Several studies have sought to quantify the incidence of Sailing injuries in various populations.

It revealed that the most common painful areas were lower back at 53%, knee (22%), shoulder (18%)...

This lower back pain comes from mainly the Trapeze position.

Here's the explanation...

HOW TO PREVENT THE BACK PAIN?

Back belts are widely used in many sports and especially in weightlifters to reduce the forces on the spine by increasing intra-abdominal pressure to increase weight lift.

THE WIP SOLUTION

To offer you the best comfort and freedom of movement, we use the best features:

• ADJUSTABLE LUMBAR BELT:

To provide the best support from the coccyx to the shoulders.

• INNOVATION: SHOULDER STRAP ADJUSTMENT:

Easily accessible from the hook bar event whilst wearing a PFD allows you to adjust tension while sailing.
